

This plugin will enable the “Call Now” icon at the bottom of the phone screen for the mobile version of Umbraco websites. Since mobile users are already holding the mobile phone, this feature helps users to contact you instantly when they are on your website. The “Call Now” icon is visible only in mobile devices screen resolution and it is not visible in desktop versions.

To configure the plugin, follow the below steps.

1. Install the plugin
2. After installing the plugin, the ‘Call Now’ macro will be created.
3. Add the ‘Call Now’ macro on which ever page you need. While adding the macro, it will ask for the phone number. Enter the phone number to contact as shown in the screen shot below.

4. If you want to have a common phone number for all your pages, add the ‘Call Now’ macro to the Master Template.
